

MCLC NEWS

Millicent Community Learning Centre opened their doors to adult learners within the community with the **Skills for Support Work in Aged Care and Disability** course. Facilitated by Limestone Coast Training, this course gave students the opportunity to gain valuable foundation skills before they transition into Certificate III in Individual Support, commencing in Millicent on the 30th of April. For anyone interested in studying the Certificate III in Individual Support Ageing, a compulsory information session will be held 9am on the 2nd of April at Boneham aged care services. Further enquiries to Limestone Coast Training 8762 0016.

Conservation and Land Management Students have been working with Kathy Bell and Julie Bevan engaging in propagation activities at the Millicent Community Learning Centre. Practical sessions were held at the School nursery and the Meeting Place Garden where students gained skills in propagation, native seed collecting, recognising plants, soils, re-vegetation restoration and conservation.

In week 6 students had the opportunity to visit the Naracoorte caves as part of the wellbeing program. Students took part in a tour of the cave, where they caught a glimpse of long extinct animal life through fossilised skeletons, and a glorious display of stalagmites and stalactites. After a picnic lunch students engaged in a number of outdoor bonding and confidence building activities before returning to the MCLC.

It's about to get cold!

Do you have an idea for a hoodie?
Our SRC are working to design a MCLC hoodie and need your support. If you would like to submit your design, please speak to one of our SRC representatives.

The **Millicent Community Learning Centre** would like to acknowledge the ongoing support from local business.
